## **Catania Vertical: environmental**

## historical itinerary

The route in Catania historic center takes place in 3 dimensions, a path from the bottom up “vertically” shows the face of Catania from different angles, underground extraction of surface and air transport.

Catania a city so intimately tied to Etna with its lava flows, shown with an itinerary that tell the transformations suffered over the centuries from the point of “urban”, environmental and historical.

Particular attention will be given to Catania “Spanish” that from above is shown in all its splendor in palaces and courtyards.

Easy scenic route took place smoothly on foot.

Designed to be articulated in a half day or full day (the difference varies the amount and variety of the sites included in the visit).

## Siracusa: Ortigia and Siracusa old walk through history and nature

A day to visit one of the most beautiful destinations artistic, cultural and environmental Sicily, Ortigia will visit the beautiful historical and archaeological remains, in particular the Archaeological Park of Neapolis, we will enter into the catacombs of St. John to take a walk through the narrow streets of the old features of Ortigia at the sight of the imposing fortress of Maniace, during a break maybe we can stop to enjoy a good meal into a fragrance of its small and cozy “trattorias” typical.

The tour continues with a visit to the beautiful basilica of Saint Lucia where it is exposed in the wonderful painting by Caravaggio and then off to the sea with a small tour of the coast of La Maddalena circumnavigandone boat

in the defensive bastions of the peninsula.

If you have the time to be used wisely we can make a short excursion along the River Cyane surrounded by a thick growth of trees and rare plants of papyrus.

Most relevant points: ancient neapoli Syracuse – basilica of saint lucia – Castle maniace – coast of the peninsula – River Cyane – gourmet food
