Itinerary day guided and commented .

hourly distance : 1.18 from catania – Agrigento from 1.44 – 2.3 from palermo

Right in the center of Sicily is localized trigonometric this "green lung"
which with its 1192 meters high, the highest peak of the mountains Erei ,
allows, once reached, a breathtaking 360 degree view of Sicily. Site over the
naturalistic summarizes historical memories that rock from civilization ,
through the Arabic , testimonials allows you to see the remains of the Middle
Ages.

The route is not difficult to reach an average walker trained , can deepen a
natural environment impact with its holm oak (Quercus ilex), the fauna is
characterized by the presence , among others, the wild cat, the hawk (bird
of prey) and fallow deer .

By walking the path that will lead us to the top, showing the story flows in
a series of " frames" ; rock caves , tombs oven, the remains of a medieval
village , and the ruins of a monastery of the Byzantine era .

In short, a journey that as an imaginary band develops in a continuum between
nature, history and culture of Sicily.

At the end , if not sufficient , for the more demanding , you can stop and
take heart and enjoy a tasting of local products in an ancient massaria 800s.
